

Outperform Your Competitors The Easy Way

Automation Premium Your Gateway To Higher Profitability

Automation Premium is an automotive service centre management application designed by the industry for the industry. First released in 2003 in conjunction with 25 Repco locations who certainly put the software through it's paces, the improvements we have made over the past 20 years have resulted in us growing the use of Automation to over 290 sites nationally in the Repco Auto Service group and attract over 300 independents that operate in Australia, New Zealand, Indonesia and South Africa. We are currently looking at appointing more agents in Asia and the United Kingdom so our product is truly international.

How Can Automation Make A Difference To Your Business ?

No matter whether you are currently computerised or still producing invoices with pen and paper Automation will improve your bottom line by providing a tool that places you firmly in the drivers seat of your business.

Full double entry accounting integrated to an automotive specific front end will keep you on top of the paperwork. Microbase knows all too well the importance of a customer, Automation provides marketing tools that are designed to increase and retain your client base. Communicate your way via email, SMS or surface mail at the click of a mouse you are in touch with your clients.

Advantages Of The Microbase Repco Alliance

Imagine not having to make a phone call or use pen and paper to raise an order for job or inventory items, imagine that your accounting system is updated with the purchase order is raised with no input except selection of the part you require. Imagine taking those functions one stage further and actually receiving the corresponding bill from Repco online with the data automatically converting the PO to a bill.

Sounds pretty amazing ??

Well all of these functions including a Smart Quote link that imports estimates directly to the job card are now available when you have a Repco account and Automation Premium installed. The benefits to you are substantial not only are you dealing directly with the largest auto parts supplier in Australia you have the added advantage of a seamless integration with their ordering and billing system. The feature is built specifically to deliver time efficiencies to your organisation. Inventory and parts ordering will be streamlined and easy.

Improve Productivity And Profitability The Easy Way

Automation Premium A Totally Integrated Business Solution

Microbase over the last 20 years have de-veloped a product that seamlessly integrates a customised automotive front end with double entry accounting functions, payroll and marketing. Our solution requires no third party interface, you have all the func-tions to run a successful automotive repair shop in one application.

Automation will maintain your client and ve-hicle history, give you an overview of job status via a comprehensive diary screen, track productivity by technician, provide you with 100 + reports that can be run by vari-ous criteria plus provide you with powerful marketing tools allowing you to communi-cate with your clients via SMS, Email or sur-face mail.

The application has many built in marketing features including a loyalty plan, client re-ferral tracking, on-line service reminder re-sponse by automated return booking. We can even send service reminders for you and provide access to one of the most cost effective roadside assistance schemes in Australia, all of these features are simply a mouse click away—You are placed firmly in the drivers seat of your business

Changing From Another Application ??

To assist we offer the following:
